Customer challenge

- Users need to **navigate through multiple screens** to get all the information related to sourcing events, pricing and associated BOM details
- **Time consuming** exercise for the users to collect information from multiple places within the solution

Meet that challenge with SAP Ariba

- SAP Ariba enhances the ability to view the material details with this feature so that users can now **view** following details in one tab:
- Graphical view of price trend with adjustable time-line
 - Ability to download the graph in PDF/PNG format
 - Associated AML suppliers
 - Associated BoMs
 - PIR information
 - Sourcing events
 - Contracts created
 - Quick links to access supplier information, sourcing events, contracts and associated BoMs

Experience key benefits

- Enhances **user experience** by displaying all the required information in a single tab through widgets and graphs
- Completely **eliminates time spent** by users in gathering information

Solution area

SAP Ariba Strategic Sourcing Suite

Implementation information

This feature is “on” by default for customers of **SAP Ariba Strategic Sourcing Suite**. No action is required to utilize this feature.

Prerequisites and Limitations

Product Sourcing should be enabled

Feature at a Glance

Introducing: Enhanced Material 360 View

Detailed feature information

- The feature adds capability to view the material details on a single page
- SAP Ariba Strategic Sourcing Suite customer should have Product Sourcing
- Users can access this search feature by clicking on “View item details” option available in the menu when the user clicks on a material

The screenshot displays the SAP Ariba Strategic Sourcing Suite interface. The top navigation bar includes tabs for HOME, SOURCING, CONTRACTS, and **PRODUCT SOURCING** (highlighted with a callout: “Product Sourcing” tab enabled). Below the navigation bar is a search bar labeled “Search for materials” and “Search materials by name or ID”. The main content area features three summary cards: “Total BOMs 108”, “Active BOMs 108”, and “New BOMs 0”. To the right of these cards are three gauge charts: “3 BOMs missing contract MFRs” (2.8%), “5 BOMs missing programs” (4.6%), and “78 BOMs without 100% split” (100.0%). Below the summary cards is a table of BOMs with columns: BOM ID, BOM name, BOM description, Owner, Contract MFR, and Pr. The table lists several BOMs, including XM60000-001 and XM130000-001. A callout (1. Click on any Material or BoM) points to the first row of the table. Another callout (2. Click on “View Material Details”) points to the “View material details” option in the expanded menu for the first row. The expanded menu also includes “View BOM details”, “View pinning info”, “Set costing level”, and “Unset costing level”.

1. Click on any Material or BoM

“Product Sourcing” tab enabled

2. Click on “View Material Details”

| BOM ID | BOM name | BOM description | Owner | Contract MFR | Pr |
