Introducing: Create Sourcing Projects on BOM and Materials in Product Sourcing

Customer challenge

- Limitation in functionality in Product Sourcing if the user want to create a full sourcing project or a quick event
- Inability to use full sourcing feature on materials and BOMs while initiating quote request from Product Sourcing

Meet that challenge with SAP Ariba

SAP Ariba expands its Product Sourcing functionality to support :

- **Full sourcing project** on materials and BOMs for request for quote originating from Product Sourcing
- **Sourcing events** on materials and BOMs for requests originating from Product Sourcing

Experience key benefits

- Product Sourcing users can now take full benefit of SAP Ariba sourcing functionality within Product Sourcing
- Users can now design sourcing projects templates & event templates as required by the business case and take benefit of them in Product Sourcing
- Users can now create complex templates as required for sourcing direct materials and make use of them in Product Sourcing

Solution area

SAP Ariba Strategic Sourcing Suite

Create Sourcing Project

To create a Sourcing Project, specify the fields below. Templates used for constructing your Sourcing Project appear in the section at the bottom of the page, and available Templates may change depending on the project attributes you enter.

Name: * ⓘ

Description: ⓘ

Copy from Project:

Project: ☐ Full Project ☒ Quick Project ⓘ

Event Type: * ⓘ

Test Project: * ☐ Yes ☒ No ⓘ

Base Language:

Baseline Spend: USD ⓘ

Target Savings %: ⓘ

Predecessor Project: ⓘ

Users have an option to either create a *Quick Project* or a *Full Project*

Select a template

Select the template you want to use, and answer any questions related to it to create your project. How you set the fields in the section above might affect which templates are available.

☐ Request for Proposal

Use this RFP to create a questionnaire with sections, questions, requirements, and/or line items to collect pricing information, and/or qualify suppliers, possibly for an auction. Buyers can weigh and grade supplier responses, and create an overall score for each supplier. Supplier responses are not revealed to other suppliers.

☐ Request for Proposal with Price Breakdown

Use this RFP to create a questionnaire with sections, questions, requirements, and/or line items to collect a price breakdown. Buyers can weigh and grade supplier responses, and create an overall score for each supplier. Supplier responses are not revealed to other suppliers.

☒ Request for Proposal with Total Cost

Use this RFP to create a questionnaire with sections, questions, requirements, and/or line items to collect pricing information, and/or qualify suppliers, possibly for an auction. Buyers can add additional cost factors, such as Shipping Fees, to calculate the total cost of supplier responses, and create an overall score for each supplier. Supplier responses are not revealed to other suppliers.

☐ DMS 2 Request for Proposal

Use this RFP to create a questionnaire with sections, questions, requirements, and/or line items to collect pricing information, and/or qualify suppliers, possibly for an auction. Buyers can weigh and grade supplier responses, and create an overall score for each supplier. Supplier responses are not revealed to other suppliers.

☐ DMS - Request for Proposal

Use this RFP to create a questionnaire with sections, questions, requirements, and/or line items to collect pricing information, and/or qualify suppliers, possibly for an auction. Buyers can weigh and grade supplier responses, and create an overall score for each supplier. Supplier responses are not revealed to other suppliers.

After selecting the project type the associated templates show-up for selection
