Target GA November 2018

THE BEST RUN **SAP**

Feature at a Glance
Introducing: **Ship notice customization**

Customer challenge

Customers needs for information around logistical processes differs based on industry type.
The Ariba Network does not offer support for some of the fields required by customers from various industries on the Ship Notice screen and on the Ship Notice CSV upload.

Meet that challenge with
SAP Ariba

Enable the customization in various sections of the Ship Notice user interface.

Enable the customization of the Ship Notice CSV template.

Experience key benefits

Buyers will be able to adjust their information requirements into the Ship Notice user interface available for their suppliers.

Sellers will be able to see a more accurate user interface during the creation of the Ship Notices to avoid entering unnecessary information.

Solution area

Operational Procurement / Network Transactions
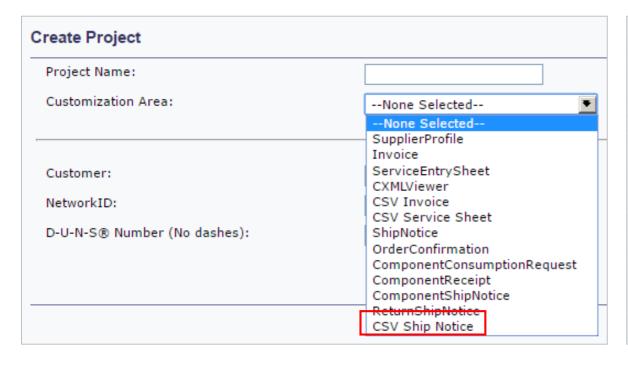

Implementation information

To have this feature enabled, please have your Designated Support Contact (DSC) submit a Commercial Request with your SAP Ariba Customer Engagement Executive or Account Manager.
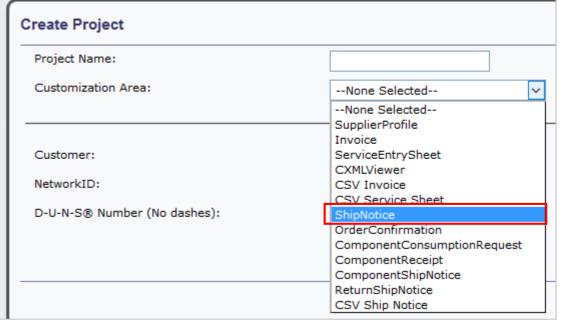

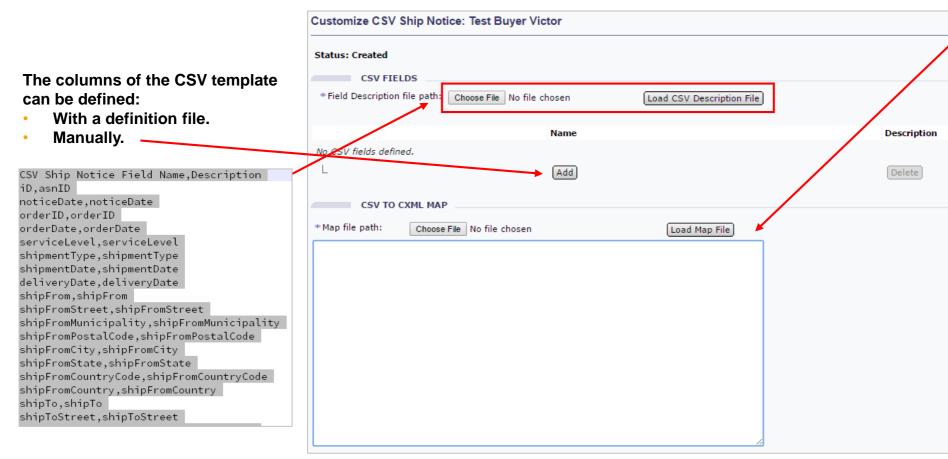

Prerequisites and Limitations

NONE

Feature at a Glance

Introducing: **Ship notice customization**

Create new project for Ship Notice, CSV or UI.

Feature at a Glance

Introducing: **Ship notice customization**

Edit project for Ship Notice CSV.

A xslt stylesheet has to be uploaded to define the mapping logic between the CSV template and the cXML required to create a Ship Notice.

The columns of the CSV template can be defined:
- **With a definition file.**
- **Manually.**

```
CSV Ship Notice Field Name,Description
iD,asnID
noticeDate,noticeDate
orderID,orderID
orderDate,orderDate
serviceLevel,serviceLevel
shipmentType,shipmentType
shipmentDate,shipmentDate
deliveryDate,deliveryDate
shipFrom,shipFrom
shipFromStreet,shipFromStreet
shipFromMunicipality,shipFromMunicipality
shipFromPostalCode,shipFromPostalCode
shipFromCity,shipFromCity
shipFromState,shipFromState
shipFromCountryCode,shipFromCountryCode
shipFromCountry,shipFromCountry
shipTo,shipTo
shipToStreet,shipToStreet
```

Customize CSV Ship Notice: Test Buyer Victor
