SAP Ariba ⋀

Feature at a Glance
Access to SAP Ariba APIs is now extended to sites in Kingdom of Saudi Arabia (KSA)

Sachin Deshmukh, SAP Ariba
Target GA: June, 2018

SAP Run Simple

Feature at a Glance

Introducing: **Access to SAP Ariba APIs is now extended to sites in Kingdom of Saudi Arabia (KSA)**

Customer challenge

Local regulations required customers to use localized SAP Ariba solution and so the availability of SAP Ariba APIs via the Developer Portal is crucial.

Meet that challenge with
SAP Ariba

This feature extends access to the SAP Ariba APIs and the SAP Ariba developer portal to sites hosted by SAP Ariba in the Kingdom of Arabia data center.

Experience key benefits

Extension of API access to the Kingdom of Saudi Arabia data center enables users and their organizations to

1. discover, learn and consume APIs through a central repository
2.. manage developer onboarding, application registration and other administrative functions
3. access a rich set of developer resources such as API guides, an API Catalog and Sandbox, a mock business environment for rapid development, and prototyping
4. easily and securely extend SAP Ariba solutions
 5. reduce the cost and time needed to develop unique industry- and region-specific applications

Solution area

SAP Ariba APIs
SAP Ariba developer portal

Implementation information

NONE

Prerequisites and Limitations

NONE.
This feature is enabled for use by all customers registered to use the SAP Ariba developer portal.
